

MENAKA 54 G2

RAIL SYSTEM DATASHEET | SPECIFICATIONS

TECHNICAL SPECIFICATIONS

ELECTRICAL PARAMETERS

Light source	» LED
AC voltage	» AC 220–240 V / 50
Connection	» terminal block
Driver	» electronic driver
Possibility of regulation	» non-dimmable (not labeled), DALI (DALI), corridor function (EPS-C) » no module » integrated emergency module, the autonomy of 1 hrs. (NM1)
Emergency module	» integrated emergency module, the autonomy of 3 hrs. (NM3) » high altitude (GH), corridor (C)

LIGHT PARAMETERS

Optical system	» wide beam (C), narrow beam (D), racking aisles (CC)
Light distribution	» direct
Color rendering index	» Ra > 80
Color temperature	» 3 000 K, 4 000 K
Service life	» > 60,000 hrs. (L80B20)

CONSTRUCTION

Housing	» powder-coated steel sheet
Color	» RAL 9003, other RAL (on request)
Surface	» gloss
Cover	» coated sheet, PMMA optics

SAFETY

Protection class	» I
Ambient operating temperature	» +5 / +40 °C
Electrical part protection	» IP 54
Optical part protection	» IP 54
Mounting on normally flammable materials	» YES

MOUNTING

Type	» suspension, surface mounted
Recommended height	» from 3 to 20 m

ACCESSORIES

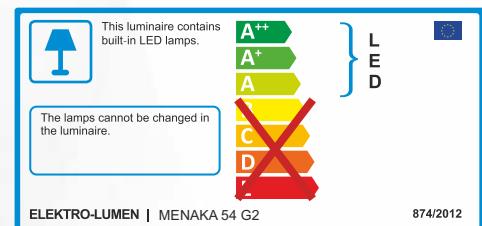

Clips	» YES
Suspension accessories	» suspension hook (on order) » cable suspension (on order) » chains (to order)

CHARACTERISTIC

MENAKA 54 G2 is a quick-fitting rail ideal for lighting industrial spaces, but also interiors.

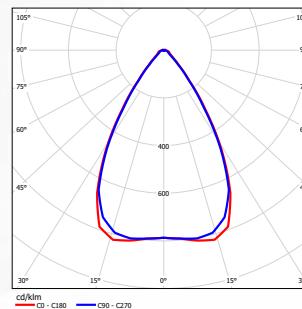

USE

Industrial areas storage areas
shelf aisles

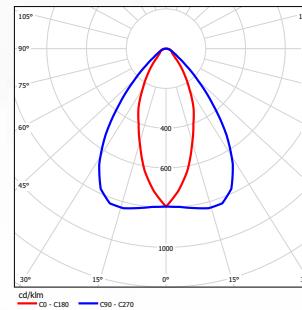

LIGHT DISTRIBUTION CURVE

MENAKA 54 G2 4 C 11k3

MENAKA 54 G2 4 CC 11k3

TRUNKING RAIL / MOUNTING RAIL

Trunking rail is made of 0,6mm powder-coated steel sheet. Standard color is RAL 9003 or other on order, and we offer two variants in lengths 2,97m or 4,45m. Inside the profile there are placed conductors with connectors for luminaire connectivity and mutual cover strip combinations in executions:

- a) 3 x 1,5mm / 2,5mm
- b) 5 x 1,5mm / 2,5mm
- c) 7 x 1,5mm / 2,5mm

The supply voltage is connected into the screwless terminal block at the beginning of the first trunking rail.

TYPE	CONDUCTOR	LENGTH	WEIGHT
LI MENAKA II	3 x 1,5 mm ²	2 970 mm	3,70 kg
LI MENAKA III	3 x 1,5 mm ²	4 455 mm	5,60 kg
LI MENAKA II	5 x 1,5 mm ²	2 970 mm	3,90 kg
LI MENAKA III	5 x 1,5 mm ²	4 455 mm	5,80 kg
LI MENAKA II	7 x 1,5 mm ²	2 970 mm	4,10 kg
LI MENAKA III	7 x 1,5 mm ²	4 455 mm	6,00 kg

Execution possibility with 2,5 mm² cross-section.

WIRING

3-Conductor basic single-phase connection - phase conductor, neutral conductor, protective conductor.	Maximum number of luminaires (drivers) for circuit breaker B and C, U = 230V					
5-Conductor three-phase connection - allows you to create a long luminaire row and also to separate luminaires into three circuits.						
7-Conductor a) three-phase connection + lighting control - allows you to create a long luminaire row and also to separate luminaires into three circuits. Contains two conductors for regulated ballasts control. It's possible to solve the emergency lighting with the DALI regulation. b) three-phase connection + continuous phase with emergency source (7th conductor is not connected).	10 A		16 A		20 A

MENAKA

Luminaire contains installation strip made of white powder-coated steel sheet (RAL 9003) with efficient LED modules with optical system, electronic driver and connector. Wiring is placed inside of the trunking rail.

Cover strip installation to the trunking rail doesn't require any tools. The locking levers provide the securing. Emergency module is possible to order on request.

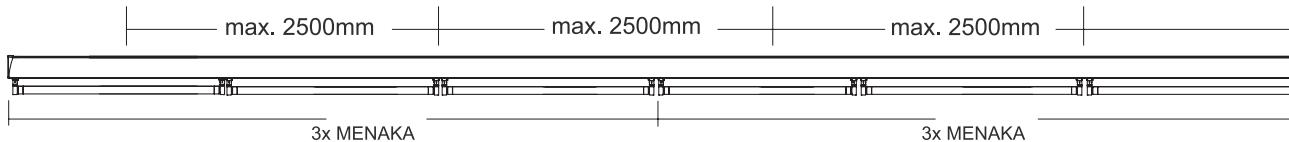

CONSTRUCTION AND MARKING

Rail system consists of trunking rail, luminaires, optical system, cover strips and accessories.
